

Facilities List

EDM Machining

Mitsubishi FA20 Advanced Wire EDM Machines	3
Mitsubishi MD Pro II Wire EDM Machines	3
Mitsubishi FA10S Advanced Wire EDM Machines	1
Mitsubishi EA10 Sinker EDM Machine	1
Elox HRP-62 Sinker EDM	1
Current EDM ST-300 EDM Hole Drill	2
Perseo Erie 430i CNC EDM Hole Drill	2

CNC Machining

Mazak Nexus HCN-40002 Horizontal Mill Machining Center, 120 tools	1
Mazak Nexus HCN-40002 Horizontal Mill Machining Center, 160 tools	3
Mazak Automated Pallettech Conveyor System, 34 Pallets	1
Haas VF-4 Vertical Milling Center, 20 tools	1
Haas VF-3 Vertical Milling Center, 20 tools	1
Haas VF-2 Vertical Milling Center, 25 tools	1
Haas Mini Mill Vertical Milling Center, 10 tools	1
Haas HPLC CNC Lathe	1
Hardinge SV-150 CNC Lathe	1
Manual Lathes	3
NC Controlled Milling Machines	7

Precision Machining Equipment

Okamoto ACC6180DX Automatic Surface Grinder, 6"x18"	4
Kent KGS615WMA1 Automatic Surface Grinder, 24" x 60"	1
Chevalier FSG-1632AD Automatic Surface Grinder, 16"x32"	1
Gardner Manual Surface Grinders, 6" x 18"	6
Sunnen MBB-1660-J Honing Machine	1
Moore JG1, CNC Jig Grinder	1

Value Added Equipment

Ultradex Beamer B-10 Laser Engraver/Etching	2
Tykma Laser Engraver w/4 th axis	1
Vision System CNC Mechanical Engraving Machine	1
Sand Blasters	3
Vibratory Tumblers	2
Heat treating Ovens (17-4, 400 Series Stainless)	2
Passivation Line	
5000 sq ft of Clean Precision Electro-Mechanical Assembly Space	
Visual Manufacturing ERP Software with bar code tracking	

Notable Inspection Equipment

Micro Hites and Optical Comparators in every Manufacturing Area, Climate Controlled Inspection Area with a wide array of calibrated inspection equipment including a CMM, Non Contact Image Measuring Dimension Systems, microscope, hardness tester, and various gages

With over 30,000 sq. ft. of climate controlled ultra modern manufacturing space and unmatched capabilities, we can manufacture just about any part in our facility.

Whether you are in need of EDM Machining or Complete Turn-Key Electro-Mechanical Assemblies Tru Form has the equipment, the process control and skilled personnel to produce tight tolerance, complicated designs to your specifications.
